## PROFILE

We are one of Europe's leading parking services providers, with 871,449 parking spaces in 6,343 secure, clean, and well-managed parking facilities across ten Northwest European countries.

The high level of quality that we provide is maintained by our 2,152 full-time employees and costs are controlled through the use of increasingly smarter solutions and systems.

We demonstrate that effective regulated- and paid parking make an economic contribution to cities and society, and that a positive parking experience contributes to how people enjoy their visit, journey, shopping, or commute.

Our activities focus on providing services related to parking at specific locations: in or near multifunctional inner-city areas, at public transport interchanges, and at hospitals.

We create value by providing high-quality functionality for built parking facilities and off-street parking at strategic locations. We do business with a long-term perspective and from a solid financial basis. Our corporate social responsibility (CSR) report gives insight into how we create value including its impact.

By applying innovative technology and by working together with public and private parties, we offer sustainable, efficient, profitable, and customer-friendly parking solutions.
